📄 About Me: Vijis Durai R

Introduction

I am **Vijis Durai R**, currently pursuing my **B.Tech in Information Technology** at **Saveetha Engineering College**. I follow a busy weekday schedule with college running from **8:00 AM to 5:00 PM**, returning home between **5:00 PM and 7:00 PM**. To catch my college bus at **6:15 AM**, I wake up at **5:15 AM** every weekday. I am now in my **final year** and focusing strongly on **campus placements**.

💻 Skills & Interests

- **Programming:** Python, Java, C
- **Interests:** Artificial Intelligence, Software Development

---

🗜️ Featured Projects & Competitions

- **Amazon ML Challenge 2024:** Ranked **695th out of 74,000+ teams**
- **Final Year Project (in progress):** Blockchain + AI platform for law firms and advocates
- **Coding Practice & Events:** Active in *Code Hunt, Code Blitz, Flipkart Grid, TCS CodeVita*, and more

---

🎓 Education & Certifications

- **Education:** B.Tech in Information Technology, Saveetha Engineering College
- **Certifications:**
- Microsoft Azure AI Associate
- Google Cloud
- MongoDB for Students
- IBM Z Skills & IBM Z Security

🕖 Achievements

- 🥇 1st Place – Virtual Maze (Saveetha)
- 🥇 1st Place – Brand Aristry (SRM TEXUS'24)
- 🥉 3rd Place – Code Hunt (St. Joseph's) & Chat Bot (SDNB Vaishnav)
- **Honorable Mention:** Hack with Folks 2023

📂Final Year Project: Blockchain + AI Platform for Law Firms

🕐Overview

A web application designed to help **lawyers manage legal documents securely and intelligently**. It combines **Blockchain** (for tamper-proof document storage) with **AI** (for smart legal assistance).

⚙ Tech Stack

- **Frontend:** React (user interface & chatbot window)
- **Backend:** Python (Django/Flask)
- **Blockchain:** Ethereum testnet / Hyperledger
- **Database:** MongoDB / PostgreSQL
- **AI/NLP:** Hugging Face Transformers, OpenAI API, spaCy
- **Hosting:** AWS / Azure / Google Cloud

🧰Key Features

- **Login System** – Secure accounts for lawyers
- **Upload Documents** – Store contracts, case files, judgments
- 🏆 **Blockchain Verification** – Immutable record for every document
- **AI Chatbot** – Ask legal questions, fetch past cases
- **Case Search** – AI-powered semantic search
- 🎞️**Summarization** – Auto-generate short case summaries
- **Alerts & Notifications** – Deadlines & hearing reminders
- 📷**Analytics Dashboard** – Track uploaded & verified cases

🏺Why It Stands Out

Feature	Existing Systems	This Project
Document Storage	Cloud/local (editable)	Blockchain (tamper-proof)
Case Search	Manual keyword	AI-powered semantic search
Legal Assistant	Basic filters	AI chatbot, natural queries
Data Security	Moderate	Immutable blockchain ledger
Summarization	Rare	Built-in AI summarization
Notifications	Limited	Smart alerts & reminders
Transparency	Low	High (blockchain hashing)
Cost	High subscription	Student prototype, cost-effective

- **Email:** vijishdurai006@gmail.com

🕐Fun Facts & Interests

- Fitness enthusiast: Works out **3–5 days weekly**
- 🧩Passionate about **coding challenges & hackathons**
- 🎨Enjoys **creative workshops and event participation**
- 📍Eager to merge **AI with real-world solutions**

📨Let's Connect!

Open to collaborations and opportunities.
